## MECHANICAL COMPONENTS AND SOLUTIONS

**INOXMECC Mechanical Workshop** is the consolidated division of INOXMECC Group, which is known for its experience in the precision mechanical machining for **over 60 years**, thanks to the development of innovative solutions for industrial components.

Today INOXMECC can be defined the ideal partner for companies which are looking for tailor-made solutions. The strength of the Italian engineering makes this Division able to perform processing for various sectors and different types of material.

## Applications:

- **OIL & GAS**
- **ENERGY**
- **HYDRAULIC**
- **OLEODYNAMICS**
- **MEDICAL**
- **AERONAUTICS**

# Machine Park

## CNC MACHINES

- n° 12 turning machines
- n° 10 engined Y-Axes lathes
- n° 10 engined lathes
- n° 14 teach-in lathes
- n° 3 Vertical lathes

maximum turning diameter with automatic loading: 105mm

maximum length with automatic loading: 1700mm

maximum turning diameter: 900mm

maximum length: 8000mm

## CNC MACHINING CENTER

- n° 2 Trevisan
- n° 2 CNC machining centers
- n° 2 four axes CNC machining centers
- n° 3 five axes CNC machining centers
- n° 5 traditional drilling machines
- n° 5 manual drilling machines
- n° 2 shearing machines

maximum drilling machining: 4000 X 1200 X 800

## THREADING

- n° 7 threading machines

## LAPPING

- n° 4 roller lapping machines
- n° 3 lapping machines

maximum diameter: 98mm

maximum diameter: 430mm

## CUTTING CENTER

- n° 4 CNC sawing machines
- maximum diameter: 430mm

## BROACHING CENTER

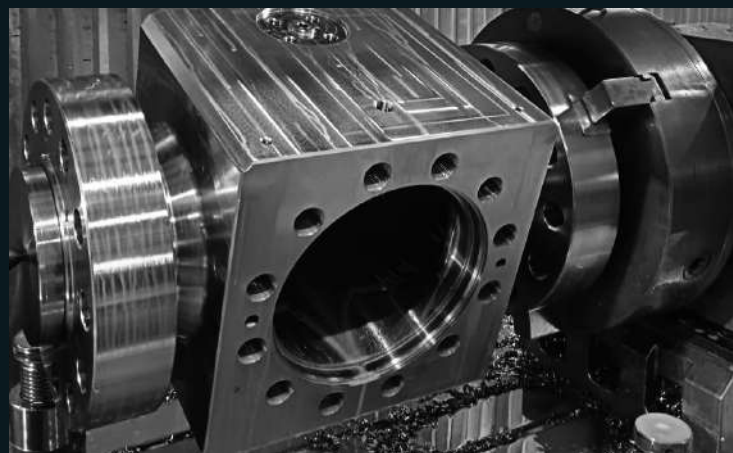

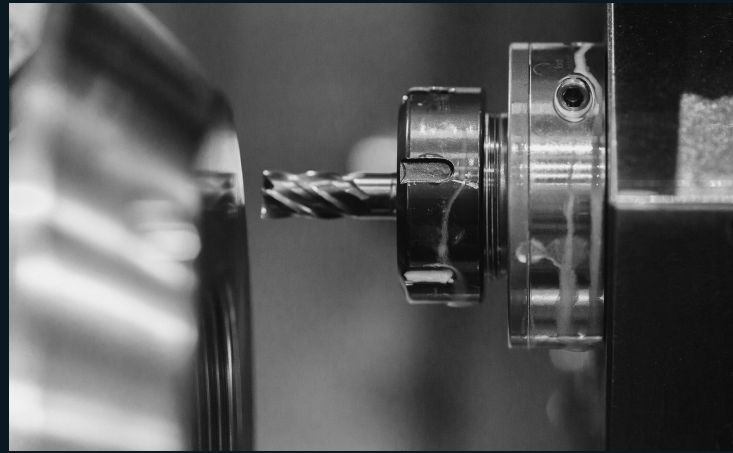

- n° 2 external broaching machines

## WELDING

- n° 3 welding machines

## STORAGES

- Automatic vertical storage - MODULA
- Automatic insert storage - MATRIX

## Additional Services

- Thermal Treatments
- Surface Treatments
- Overlay Welding
- Hydraulic and Pneumatic Tests
- Certificates supply and control
